

Dear boss, (dear me..)

Please have a look at this
possibility for us to...

ready2
LOOP

..accelerate our
achievements in
sustainability and
Circular transition...

ready2
LOOP

We have the chance to
engage by sharing insights
and needs in January,
and in return receive...

ready2
LOOP

1) A circular economy
readiness assessment
(How are we doing right
now? How ready are we?)

2) Circular economy strategy development

(What could be possible
future strategies for us
to look in to?)

Can we agree to spend
some hours in January
to connect with
students and experts
from DTU?

We can engage with as
little as 10 hours, over
three weeks.

January is quite
dark, and the new
year resolutions already
broken

– Can we please
brighten up January
with some buzz and
innovation for the sake
of planet earth?

They promise that it
will be fun too. 😊

All the best
